

SUPPLY-SIDE SCHEDULE — STYLESHEET ENTITLEMENTS

For twenty years the cascade has been given away. **Colour Licencing** restores a simple principle: layout is a privilege, and privileges are priced.

TIER	PER MONTH	ENTITLEMENTS
Internet Explorer 5 FREE	£0	<i>display:</i> block. <i>position:</i> static. Margin, no padding. Document order, top to bottom. Scroll down to read the site. People managed.
Warmth BEIGE	£9	The keyword <i>beige</i> . Not the hex. One beige per site; a second requires the Multi-Beige add-on. Upgrade path: taupe, ecru, greige, oatmeal, bone.
Netscape QUIRKS	£20	<i>position:</i> <i>relative</i> (14-day trial, then billed). <i>top</i> and <i>left</i> included; <i>right</i> and <i>bottom</i> sold separately, so RTL costs double.
Business FLEX · 3 SEATS MIN.	£49	<i>display:</i> <i>flex</i> and <i>flex-direction:</i> <i>row</i> . Column +£20. <i>justify-content:</i> <i>center</i> metered at £15 and never bundled. <i>gap</i> billed per pixel per month; 8px scales qualify for volume discount.
Standards Mode ENTERPRISE	POA	Grid, container queries, <i>:has()</i> , <i>position:</i> <i>sticky</i> , unlimited <i>!important</i> with governance. SSO for your stylesheet. SCIM-provisioned design tokens. 99.9% Specificity SLA. ¹

ADVISORY — CONTRAST

The free tier renders #333 on #ccc, as reproduced here: approximately 4.1:1, which is just below WCAG AA. Conformance is available from the Warmth tier upwards.

ABSOLUTE VALUES PACK

£29/mo

Pure black and pure white. Sold together — one without the other has no use. Dark mode is downstream of this entitlement.

Values within ΔE 2.0 of a reserved value, computed in OKLCH, are reserved values. *currentColor* is not a loophole.

VANTA BLACK²

£900

Exclusive worldwide licence to #000. One holder at a time. All other licensees are issued #010101 and the knowledge that someone holds the real one.

Transferable on the secondary market at 15%. Current holder published in the public registry.

WARMTH

PRO

#010101

#000 — LICENCED

All supply-side prices exclude the **Infrared Surcharge** (£50, mandatory, every tier) and any viewer entitlement held by the people looking at your website. *Schedule B overleaf.*

1. Selector conflicts resolved within four business hours. Credits capped at 10% of monthly spend, which is less than the cost of the outage, as is customary.

2. Greek alpha. Any resemblance to a trademark held by a nanomaterials manufacturer is orthographically distinct and our solicitors are satisfied.

0. This document was typeset on the Internet Explorer 5 tier by a licensee holding no entitlement. Every black reproduced above is #010101 and every white is #fefefe. The Vanta Black swatch is a forgery and has been reported. Reference 447-201-998.

3. *vertical-align: middle* is excluded by name from every agreement. No explanation is offered and none has ever been requested.

Charging the people who build websites limits you to the people who build websites. **Schedule B licences the eye.** Precedent is well established: this country has billed households for the presence of colour since 1968, and several hundred monochrome licences remain in force today.

LICENCE	PER YEAR	CHANNELS & CONDITIONS
Monochrome ONE CONE	£58	Luminance only. Pairs with the Internet Explorer 5 tier for an end-to-end greyscale estate, which auditors prefer.
Dog TWO CONES	£95	Blue and yellow. No red, no green. <i>Most of the internet. None of the red.</i> Requires 75Hz minimum delivery ¹ — see Advisory below.
Human THREE CONES · STANDARD	£174	Full trichromatic entitlement. The standard household bundle. Contents have never been read by a licensee.
Tetrachromat FOUR CONES	POA	Genetic screening at onboarding, charged separately and non-refundable. Most applicants fail. The failed applications are the profitable part.
Mantis Shrimp ENTERPRISE	POA	Twelve-plus photoreceptor classes, polarised light. No applicant has ever qualified. Exists so that the tier above looks attainable.

ADVISORY — DOG TIER MARGIN

Dogs resolve flicker to roughly 75Hz where humans are content at 60. The cheapest licence is therefore the most expensive to serve, and cannot be upsold, as dogs do not hold payment cards. The tier is retained indefinitely.

INFRARED SURCHARGE — MANDATORY

£50/yr, all tiers

Applies to every licence class without exception. Included in the advertised total in accordance with current fee-transparency rules, and itemised separately on the invoice, which is the point.

Delivery cannot be verified by the licensee. No support ticket has ever been raised against this product and none can be.

Ultraviolet arrives next quarter at £80. Bees and most birds can see it. You cannot. It will be delivered in full.

ENFORCEMENT

Officers carry a calibrated detector. Every object above absolute zero emits infrared; every body in the dwelling radiates continuously. The detector has returned a positive reading at every address at which it has been presented.

The only compliant premises is one held at absolute zero, which the third law of thermodynamics establishes to be unattainable. Liability is therefore permanent and universal, and our addressable market is all matter.

Declaring that no colour is viewed at the address does not close the file. It opens one.

OFFICIAL NOTICE

Is anyone at this address viewing infrared colour without a licence? No occupant can perceive infrared, and so no occupant can confirm or deny the question. There is no evidence available to you and no defence open to you. Please answer in the box provided within 10 days.

An officer may be in your area. Your reference is **447-201-998**. This number resembles a case number. The deadline advances daily and is always tomorrow.

1. Frame delivery above 60Hz is recovered through the Thermal Revenue line and not billed to the licensee, who is a dog.

2. Screen-reader users are advised that none of the above applies to them. The accessibility tree is unpriced, unmonetisable and was never ours. We continue to seek a remedy.

0. Produced without a Colour Licence, in greyscale, by a party who then invoiced for colour. The irony has been noted internally and converted into a line item.

3. Payment by cheque must spell *licence* with a c. Cheques bearing the American spelling are returned with a further notice and a £12 administration fee.

COLOUR LICENCING IS A SATIRE. NO EYES, DOGS OR HOUSEHOLDS WERE BILLED IN THE PRODUCTION OF THIS DOCUMENT.
